Two open PhD positions at the remote sensing department of the Leibniz Institute for Tropospheric Research (TROPOS), Leipzig, Germany

Dear ACTRIS community,

We want to draw your attention to two open PhD positions at the remote sensing department of the Leibniz Institute for Tropospheric Research (TROPOS), Leipzig, Germany.

PhD Position 1:

- Representation of irregularly shaped aerosol particles in optical scattering models
- Project: OLALA
- Start: April 2024
- Application until 10 December 2023
- <https://www.tropos.de/en/institute/career/details/doktorandenstelle-m-w-d-ka-in-der-abteilung-fernerkundung-atmosphaerischer-prozesse>

PhD Position 2:

- Identification of trends in aerosol-cloud-dynamics interactions from ground-based remote sensing
- Project: CleanCloud
- Start: January 2024
- Application until 30 November 2023
- <https://www.tropos.de/en/institute/career/details/phd-position-identification-of-trends-in-aerosol-cloud-dynamics-interactions-from-ground-based-remote-sensing>
